

Bioinformatics Service Fees 2021

Description		Fee
NGS (RNA-seq, WES, ChIP-seq, ATAC-seq, Single Cell RNA-seq, methylation)/microarray	Quality control	10 euro/sample
	Analysis pipeline for expression quantification	5 euro/sample
	Gene Panel analysis pipeline for variant identification	5 euro/sample
	DNA-Seq analysis pipeline for variant identification	5 euro/sample
Metabolomics	Quality control	10 euro/sample
	Analysis pipeline	5 euro/sample
Biostatistics (NGS/microarray/metabolomics)	Differential Expression Analysis	90 euro/hour
	Functional Enrichment Analysis	90 euro/hour
	Functional Prediction	90 euro/hour
Data mining	Database Mining / Information Retrieval	90 euro/hour
Gene Discovery / Annotation	Gene-Disease Relationships	90 euro/hour
	Drug-Target Relationships	90 euro/hour
	Pathway-Disease Relationships	90 euro/hour
Software	Custom-made Visualization Tools	90 euro/hour

VAT not included. There is a discounted internal rate of 50% for CIBER research groups.
